Remarks:

Strong points:

1. Excellent performance by the instructor
2. Choice of topics
3. A wide variety of modern and stimulative teaching methods (RPG, videos)
4. Interaction among students as well as between students and the instructor
5. Connection between the taught theories and current topics
6. Updated on current security challenges via BU Moodle
7. Short quizzes during the trimester that helped/made students to study during the trimester. This made the preparation for the term exams easier.
8. Presentations made by students helped everyone to better understand the topics and in parallel connect them with current issues.

Problems/Room for improvement:

1. Occasionally (1-2 times) the time was not enough to cover all topics, have the presentation and hold a conversation/debate afterwards. A good idea perhaps would be to exclude 1-2 topics so that there will not be any time pressure.
- With regard to question 13 I have not attended any other courses from HKBU or any other Hong Kong University and hence I cannot reply.
  - My overall impression about the course is excellent.
